1 General Information

This document describes the updating process for the A1410 Pulsar device.

NOTICE

System updates shall only be executed by authorised personnel.

Always check that your device is sufficiently charged or connect the device to the charging unit. Switching of the device due to power loss or manually by accident or purpose will interrupt the updating process and the device will be damaged.

2.3 Finishing the process

Reset Device to Factory Settings.

Pic. 10: A1410 scheme

- 1. Hold Down-Button and Up-Button.
- 2. Press on/off-Button.
- 3. Release on/off-Button.
- 4. Release Down-Button and Up-Button

The Pulsar should now be operational.
